

# KRISHNA TEJA A

A passionate Web Developer with a solid background in computer science and hands-on experience in various web development projects.

## EXPERIENCE

**Infosys** – *ReactJS, Redux Toolkit, NextJS, NodeJS, JavaScript.*

2022 - To Date

**Confidential Client 1 (Sales Performance Dashboard)** – Client Services performance Dashboard, where all kinds of metrics are showcased in a tabular format with filters, pagination and a search bar. I've worked on implementing new enhancements to the pages, adding new columns as per the requirement and also worked on release activities.

**Confidential Client 2 (Wealth & Asset Management)** – An asset management website for internal users in one of the leading banks in America, I'm migrating the website UI from old legacy code(ASP site) to ReactJS using Material UI.

**Littelfuse Client** – Worked on complex webpages like Global Search & Search Results page, Parametric Table, and WhereToBuy(Google Maps integration). All the 3 pages include a left sidebar acting as a facet filter, the main content that gets updated based on the filter section, and pagination, one of the pages consists of a table in which there will be a fixed header & columns, along with pagination, CTAs, Images, customised grid layout, and the table is responsive i.e., collapsable & expandable based on user interaction.

**Pages that I've developed from scratch for the Littelfuse project:**

**WhereToBuy** – <https://www.littelfuse.com/wheretobuy>

**Search Results (including global search)** – <https://www.littelfuse.com/searchresult?searchTerm=lift%20truck>

**Parametric Table** – <https://www.littelfuse.com/products/fuses-overcurrent-protection/fuses/aec-q200-qualified>

**Oi Digital Pvt Ltd** *Site Studio(Drupal), CSS, JavaScript.*

2020 - 2022

**Bayer Client**

*List of projects that I worked on in 6 months:*

<https://www.hemophilia-view.jp/> • <https://betterl.bayer.jp/kanenkino> • <https://www.nubeqa.jp/ja> • <https://www.adempas.jp/> • <https://www.vitrakvi.jp/> • [Womens ai sales aid \(oi.co.uk\)](https://www.womensaid.co.uk/)

**Support/Maintenance** — *Acquia Site Studio(Drupal), CSS, JavaScript.*

*List of projects that I did support for:*

<https://www.nebido.com/> • <https://ophthalmology.bayer.com/> •

Hyderabad, Telangana

## SKILLS

### Ai Integration

Google GenKit, OpenAi

### Web Technologies

HTML5, CSS3, Bootstrap 5, Material UI, JavaScript, TypeScript, jQuery, JSON, ReactJS, Redux Toolkit, NodJS, Vite, Webpack, GraphQL, React Native

### Framework

NextJS, Expo(React Native)

### Database

MySQL, SQL, Supabase

### IDE

VS CODE, Google Firebase Studio

### APIs

Google Maps, Youtube, AWS SES, TextLocal SMS, Razorpay Payment Gateway

### Package Managers

Npm, Composer, Bun

### Version Control

Git, Bitbucket

### Miscellaneous

Adobe Photoshop, Premiere Pro, After Effects, Familiar with all popular operating systems

## PROFESSIONAL SUMMARY

Release activities to ensure smooth

<https://www.eylea.co.uk/> • <https://www.manversation.co.uk/> • <https://www.restoretheman.co.uk/>

## **Timing Technologies India Pvt. Ltd.** *PHP, CSS, JavaScript, jQuery* **2018 - 2020**

**iFinish** — *PHP, Bootstrap 3, Google API, Razorpay Payment API, TextLocal SMS API, Google Charts API, AWS SES API*

<https://www.ifinish.in>

It is a renowned platform that provides registrations to marathon participants across India. The portal also provides the event organizers with a dashboard to maintain their events online.

**Timing India** — *Laravel 5.6, Youtube API, fpdf PHP Library*

<https://www.timingindia.com>

This portal provides a list of marathon events that are currently open based on the user's location and also publishes the event results past the event.

**HR & AHM Websites** — *WordPress, Google Maps API, Custom Posts Extension in WordPress*

<https://www.hyderabadrunners.com/> <https://www.airtelhyderabadmarathon.com/>

These portals are a portfolio of the event organizers Airtel Hyderabad Marathon & Hyderabad Runners to provide information about the events that are happening.

## **EDUCATION**

**Loyola Academy Degree & PG College** - OCTOBER 2015 - AUGUST 2018  
Hyderabad— *Master of Computer Applications*

**Chaitanya Degree & PG College** - APRIL 2012 - JULY 2015  
Warangal — *B.Sc.(Computer Science)*

## **PERSONAL DETAILS**

**Nationality** — *Indian*

**Gender** — *Male*

**Marital Status** — *Married*

**Date of Birth** — *16-10-1994*

Date: 09-05-2025

Place: Hyderabad

deployment to the production and post deployment testing.

State management using the redux toolkit, created a dynamic API layer that all the components use to interact with API endpoints.

Designing reusable components using NextJS and APIs.

Developed complex pages like Global Search, Parametric Table, and WhereToBuy(Google Maps integration).

Implemented Google Maps API that seamlessly works with React Components.

Modernising websites from old legacy code to the latest trending technologies.

Coordinating with respective project managers to clear doubts about the project from the team.

Worked in an Agile environment having daily stand-up meetings, scrum, site reviews, sprint planning, sprint grooming etc.

Coordinating with the QC team and making them understand client requirements so that it could help them in testing the sites.

Bridging a seamless connection between frontend & backend using RESTful APIs.
